

Marymount California University – Hilbert College Agreement

Hilbert College wishes to serve current undergraduate and graduate Marymount California University (MCU) students beginning in the fall of 2022. Through a formal transfer agreement, Hilbert offers MCU students the ability to transfer all their earned MCU credits into Hilbert's degree programs both online and/or in New York. Students can learn more at:

<https://discover.hilbert.edu/mcu/>

- Hilbert provides degree options for all MCU undergraduates through face-to-face and online modalities.
- Every reasonable effort will be made by both institutions to assure there are no additional out-of-pocket costs to MCU students as they transfer to Hilbert.
- MCU students will have the option to transfer to Hilbert's New York residential campus.
- MCU students who have stopped out can transfer to Hilbert to complete their degrees online, provided they meet admissions criteria.
- MCU's athletes can transfer into Hilbert's New York-based NCAA Division III athletics program, which includes most of MCU's NAIA offerings. More athletic information at <http://www.hilberthawks.com>
- MCU international students will be served by Hilbert's international student advisor. More information at <https://www.hilbert.edu/student-life/international-education>
